Department of Obstetrics & Gynecology: **An introduction**

Cairo University

Introduction

- The Kasr Al Ainy Obstetrics and Gynecology Hospital is a major national and regional referral center providing state-of-the-art medical service.
- The hospital offers a comprehensive range of services in the field of women's health, including general obstetrics and gynecology, high risk pregnancy, prenatal diagnosis and fetal medicine, urogynecology, gynecologic oncology, reproductive endocrinology and infertility.

Our hospital at a glance

- Six inpatient units (Depts. 22, 32 & 33) with a total of 175 beds.
- An antenatal care and fetal medicine unit (Dept. 21) with 3D and 4D ultrasound facilities.
- A general surgery unit (Dept. 11) with 55 beds.
- A neonatology unit equipped with 28 incubators.
- A 24/7 casualty unit (Dept. 10) that includes:
 - An 18-bed pre-labor ward
 - Two operating theaters
 - Three normal labor rooms
 - A 9-bed intermediate intensive care unit (ICU)
- Two laboratories (general and endocrinology labs).

Our hospital at a glance (continued)

- An operating theater for major and minor procedures as well as minimally invasive surgery.
- A radiology unit (providing X-rays and hysterosalpingograms).
- A urodynamics unit (Dept. 21).
- A postgraduate library offering the latest medical journals and textbooks, as well as a database of all research and scientific production of our department.
- An Ob/Gyn museum with a unique collection of surgical and pathological specimens.
- A auditorium for scientific meetings.
- Lecture rooms.
