EUROPEAN ROBOTIC UROLOGY SYMPOSIUM 2005

Introduction

Since the beginning of robotics in urology, many procedures have been successfully completed. At the same time, certain indications still require some validation. One thing is sure, there is a dramatic increase in the number of procedures performed, in particular for radical prostatectomies (2600 in 2003 and an expected 8000 in 2004).

But the time has come to standardise the language. Taking into account the number of prostatectomies done to date in Europe, we must now present European results using the same common criteria.

Programme Overview

A review of the anatomy and histology of prostate cancers and the approach to oncological results in accordance with surgical margins. Interactive discussions with an electronic voting system, used throughout the symposium. Elaboration of a European data base as well as an evaluation protocol.

Other aspects of robotics in urology: cystectomy, pyeloplasty, nephrectomy and vasectomy reversal.

The economic considerations of robotised surgery.

Accreditation Statement

ERUS 2005 has been accredited by the EBU (European Board of Urology) 12 CME points and by the SSU (Swiss Society of Urology) 12 points.

Location

ERUS 2005 is being held at the Auditoire Louis-Jeantet, route de Florissant no. 77, in Geneva, Switzerland. Transport is provided by coach from the Royal Manotel hotel in Geneva.

European Robotic Urology Symposium 2005 (ERUS) Programme Committee

Host Faculty:

Charles-Henry Rochat M.D.
Jean J. Sauvain M.D.
Georges A. de Boccard M.D.

Organising Committee:

Philippe Cassegrain
Nigel Rigg
Aldo Campana M.D.

EUROPEAN ROBOTIC UROLOGY SYMPOSIUM 2005

Programme

Wednesday, February 23

- > Arrival and registration of participants at the hotel
- > Evening free

Thursday, February 24

- > Breakfast at hotel
- > Coach transport to Symposium
- bus leaves at 7.45 am

All day training on the four arm da Vinci® robot

*Live operations depend on availability of cases

Speakers and Moderators:

James Peabody M.D., Detroit
 Arnaud Villers M.D., Lille
 Xavier Cathelineau M.D., Paris
 Alexandre Mottrie M.D., Brussels
 Thierry Piéchaud M.D., Bordeaux
 Pierre Dubernard M.D., Lyon
 Jacques Hubert M.D., Nancy
 Richard Gaston M.D., Bordeaux
 Guy Vallencien M.D., Paris
 Ryan Rhodes, Sunnyvale, CA
 Timothy Wilson M.D., Duarte, CA
 Peter Wiklund M.D., Stockholm
 Hubert John M.D., Zürich
 Aldo Campana M.D., Geneva
 Georges A. de Boccard M.D., Geneva
 Charles-Henry Rochat M.D., Geneva
 Jean J. Sauvain M.D., Geneva
 Dominique Weintraub M.D., Geneva
 Philippe Cassegrain, Geneva

08:00	Registration for local participants at the Auditoire Louis-Jeantet	
08:30	Welcome address	Charles-Henry Rochat M.D.
08:45	*Live Case 1 Robotic Prostatectomy - Lead moderator - Charles-Henry Rochat M.D.	James Peabody M.D.
10:00	Presentation 1 – The Surgical Anatomy of the Prostate	Arnaud Villers M.D.
10:30	Coffee Break	
11:00	Presentation 2 – Update on the Classification and Interpretation of Margins	Dominique Weintraub M.D.
11:20	Presentation 3 – Oncological Results Based on Dissection Approach	Thierry Piéchaud M.D.
11:40	Presentation 4 – Round table presentation of the European dVP Results from the top 5 hospitals	Karolinska Hospital (Stockholm) Institut Montsouris (Paris) Zürich University Hospital OLV - Aalst (Brussels) Clinique Générale-Beaulieu (Geneva)
12:10	Video Forum 1	
12:30	Lunch	
13:30	Coffee and meeting with the sponsors	
14:00	*Live Case 2 Robotic Prostatectomy - Lead moderator - Richard Gaston M.D.	Alexandre Mottrie M.D.
15:30	Presentation 5 – The Debate on the Extra-Peritoneal and Retrograde Approach	Pierre Dubernard M.D.
16:00	Coffee Break	
16:30	Presentation 6 – Clinical Data Protocol for Evaluating dVP Results. Launching the European Data Base.	Aldo Campana M.D. Xavier Cathelineau M.D. Thierry Piéchaud M.D.
17:00	Wrap and coach transport to Hotel	Charles-Henry Rochat M.D.
19:30	Coach transport for dinner	
20:00	Dinner and Jazz at “Les Halles de l’Île”	
22:30	Coach transport back to hotel	

Friday, February 25

- > Breakfast at hotel
- > Coach transport to Symposium
– bus leaves at 07:45

All day training on the four arm
da Vinci® robot

*Live operations depend on availability
of cases

www.beaulieu.ch

ERUS 2005 Video Forum 1 and 2

Participants are invited to
present their work in video
form during Forums 1 and 2.
They are requested to submit
their video in VHS or DVD
format. Each video should not
exceed 6 minutes. The video and
an abstract must be sent to
the Organising Committee by
January 31, 2005.

Address :

Dr. Charles-Henry Rochat
12 chemin Beau-Soleil
1206 Geneva / Switzerland

08:30	*Live Case 3 Robotic Pyeloplasty - Lead moderator - Timothy Wilson M.D.	Jacques Hubert M.D.
10:00	Presentation 7 – The Robotic Cystectomy / dVP Results / 4th Arm Experience	Timothy Wilson M.D.
10:30	Coffee Break	
11:00	Presentation 8 – Treating Erectile Dysfunctions following Prostatectomies	Georges A. de Boccard M.D.
11:20	Presentation 9 – The da Vinci® Project at the Clinique Générale-Beaulieu – Motivation and Results	Philippe Cassegrain
11:40	Video Forum 2	
12:30	Lunch	
13:30	Coffee and meeting with the sponsors	
14:00	*Live Case 4 Robotic Prostatectomy - Lead moderator Jean J. Sauvain M.D.	Peter Wiklund M.D.
15:30	Presentation 10 – The Robotic Donor Nephrectomy	Jacques Hubert M.D.
16:00	Presentation 11 – What's New with the da Vinci®	Ryan Rhodes
16:30	Wrap	Charles-Henry Rochat M.D.
17:00	Coach transport to hotel or week-end event	

EUROPEAN ROBOTIC UROLOGY SYMPOSIUM 2005

General Information

REGISTRATION

The registration fee of Euros 200.- per participant covers the attendance at the two day symposium, coffee breaks, lunch, coach transport and Thursday evening's dinner and entertainment at "Les Halles de l'Île".

The deadline for registration is January 20, 2005.

After this date, the registration fee will be Euros 300.-.

CANCELLATIONS

A refund of Euros 140.- (70%) will be given if a cancellation is made prior to February 20, 2005. After that date, all other cancellations will be non-refundable. Participants are responsible for cancelling their accommodations and travel arrangements.

ACCOMMODATIONS

A block of rooms is being held at the Royal Manotel, rue de Lausanne 41, 1201 Geneva and are available on a first-come, first-served basis. A single occupancy room is Euros 150.- per night. To make a reservation, please contact Ms. Dorothea Descomps at dorothea.descomps@intusurg.com or call + 33 1 39 04 26 72.

LEISURE PROGRAMME

Enjoy the unforgettable experience of a night in a mountain refuge with a wonderful view on the Mont-Blanc (French or European visa necessary). You will access the refuge driving a Ski-Doo on Friday evening.

The following day, Saturday 26, you will discover the "Mer de Glace" with lunch at a high altitude restaurant. A helicopter ride around the Mont-Blanc is optional. The return to Geneva is planned on Saturday afternoon at around 5 pm.

Price for the leisure program: Euro 200.-
Please note that places are limited.

The Clinique Générale-Beaulieu in Geneva :

- One of the largest private hospitals in Geneva.
- Employs more than 380 people and serves more than 9'000 patients a year.
- Is specialised with complete healthcare services covering the areas of surgical, medical and obstetrical care.
- Has created new high-tech medical programmes such as the Institute of Nuclear Medicine (PET-CT) and has adopted the latest surgical technology (da Vinci® Robotic system).
- Is a member of the "Swiss leading Hospital Association" and guaranties first class hotel service to its customers.
- Is ISO 9001 certified for comprehensive healthcare.

The Société Médicale de Beaulieu (SMB) :

The objective of the SMB is to promote private medical excellence through the ongoing development of new techniques for the treatment and comfort of patients.

The Geneva Foundation for Medical Education and Research (GFMER) :

A WHO Collaborating Centre in Education and Research in Human Reproduction, is a non-profit organization established in 2002. The overall objectives of the Foundation are to furnish health education and research programmes that can be applied by many countries to establish collaboration between entities from the public and private sectors.
