6TH INTERNATIONAL WORKSHOP ON PREVENTION, SCREENING OF CERVICAL CANCER AND COLPOSCOPY

2015, MARCH 26 – 27

KRIBI, HOTEL LE PARADIS, CAMEROON

OBJECTIVES:

- Update knowledge on cervical cancer prevention.
- Present expertise about diagnosis and therapy of precancerous and early invasive lesions of the cervix.

WELCOME MESSAGE

Dear Friends and Colleagues,

We are happy to announce the scheduling of a workshop on the prevention, screening, treatment of precancerous lesions of the cervix and therapy by the Faculty of Health Sciences of the University of Buea, the Faculty of Medicine and Biomedical Sciences, University of Yaoundé 1, the Cameroon Baptist Convention Health Services and the University Hospitals of Geneva.

This workshop will give an ideal opportunity for doctors and paramedics in training or those who already have some knowledge and practice with regard to cervical cancer screening, prevention and treatment. Skills shall also be updated in treatment. During the workshop, we will discuss new screening concepts, diagnosis and the current management of precancerous lesions of the cervix and early cervical cancer.

We are looking forward to seeing you during this workshop.

Accept our best wishes.

Drs Adamo BONGO and Patrick PETIGNAT

For the Organizing Committee

Email: adamo bongoe [bongoecam@yahoo.com]

PARTICIPANTS:

Medical doctors and Nurses involve in cervical cancer screening and treatment programs, residents in gynecology, gynecologists/obstetricians and anatomical pathologists.

Official Languages are English and French (slides are in English)
