Preface by the country coordinator

Reproductive & Child Health Research Unit ([RCRU](#)) at University of Medical Sciences & Technology ([UMST](#)), Khartoum – Sudan works as a think tank and leading center for capacity building, training and research on reproductive and child health in Sudan in hard-to-reach communities and conflict affected fragile states, producing evidence, and supporting evidence based health systems decisions and policies. RCRU is working in partnership with policy makers, health providers, community leaders, local and international NGOs, and communities. Whilst building capacity of healthcare professionals and conducting research to generate evidence, RCRU also aim to empower women, engage communities, and increase their level of readiness to participate in future projects, advocate for context understanding and capacity building. RCRU works in partnership with different departments and institutes within University of Medical Sciences & Technology to offer PhD, MSc and Postgraduate diplomas as well as numerous continuing education courses in public health, tropical health, family medicine, nursing, research methodology and biostatistics, and reproductive healthcare management.

RCRU collaborated with GFMER to coordinate the distant learning course “From Research to Practice: Training in Sexual and Reproductive Health Research” in Sudan and Yemen, through the following activities: 1) Students coaching at local level; help them and offer assistance to access the teaching material, and learning methods. 2) Create a network and organize meetings within the students from the same country, and ensure communication between them and with the course organizers.

The RCRU team consists of Dr. Khalifa Elmusharaf (Director of RCRU), Dr. Amal Khalil (Coordinator, RCRU), a number of dedicated research fellows and shifting interns who work as research assistants.

Dr. Khalifa Elmusharaf, MBBS, PGDip, FRSPH (UK)
PhD researcher in Health System & Policy (Ireland)
Director of Reproductive & Child Health Research Unit (RCRU)
GFMER country representative – Sudan (UMST)
University of Medical Sciences & Technology
Khartoum - Sudan

Preface by the RCRU coordinator

In the last few years RCRU established many projects, collaborations and initiatives. RCRU launched a “Rebuilding reproductive and child health systems in post-conflict settings initiative”. Through this initiative it is hoped that reproductive and child health system, policy and services in post conflict setting will be better informed in order to improve policymaking and program development and that we will be closer to attaining the health related MDGs ([ReReCHI](#)). RCRU established a University Community Partnership Project (UCPP) as a partnership between a vulnerable community and the University, with the aim of improving health through influencing social determinants ([UCPP](#)). RCRU develops innovative approaches for capacity strengthening for health workforce, researchers and policy makers, and to advocate for and promote health of hard-to-reach conflict-affected women ([IPHE](#)).

RCRU is a member many international alliances and networks, such as Global Health through Education, Training and Service ([GHETS](#)), Network: toward unity for health ([Network: TUFH](#)), WHO Partnership for Maternal, Newborn & Child Health ([PMNCH](#)), WHO Alliance for Health Policy and Systems Research ([Alliance](#)), and Geneva Foundation and Medical Education and Research ([GFMER](#))

Dr. Amal Khalil, MBBS, MPH
Coordinator of Reproductive & Child Health Research Unit (RCRU)

About GFMER

The Geneva Foundation for Medical Education and Research (GFMER) is a non-profit organisation established in 2002. It is supported by the Republic and Canton of Geneva, the Department of Social Affairs of the City of Geneva and other Swiss and international institutions. The Foundation works in close collaboration with the World Health Organization (WHO). GFMER is a WHO Collaborating Centre in Education and Research in Human Reproduction. The overall objectives of the Foundation are to furnish health education and research programs that can be applied by developing countries, and countries in economic transition, and to establish collaboration between entities from the public and private sectors.

Orientation Session

RCRU conducted an orientation session about GFMER to promote and orient the potential participants with the “From Research to Practice: Training in Sexual and Reproductive Health Research” course by bringing together the new 2012 course participants with previous course graduates, to speak on the course and reflect on their experiences. RCRU announced that it shall act as a hub for providing all required material, support through the previous candidates and fellow researchers at the unit as well as forming the Reproductive Health Research Forum.

The invitation was posted on facebook and private customized invitations letters were sent to all previous participants, current candidates as well as a guest list and phone called targeting universities, research institutes and obstetric and gynecologists. Flyers were displayed and distributed as well.

The event was scheduled on the 28th of March 2012 from 18:00-19:00. The afternoon started off by a presentation introducing the Reproductive and Child Health Research Unit by its coordinator Dr. Amal Khalil. A round of introductions was followed by a comprehensive talk on the course, expectations and experience presented by Dr. Shahd Husaain an Obstetric and Gynecologist consultant and first round participant of GFMER. Dr. Shahd highlighted the importance of the assignments, fruitful material and great network she formed during the course. She encouraged all the attendees to join the course.

Dr. Ahmed Khalil also shared his experience with the audience, reflecting on why it's important and what he gained especially on the skills of reviewing literature, producing publishable articles, having up to date information on global SRH issues, being awarded certificates from the GFMER and other prestigious schools as Oxford University. Adding to that the diverse backgrounds of the participants and rich experience of the lecturers and mentors of the course which makes it all fulfilling and mostly having contacts with the GFMER, WHO and participants. <http://www.slideshare.net/RCRU/ahmed-my-gfmer-course-experience>

Dr. Ayat AbuAglas local organizer of the event announced that Dr. Khalifa Elmusharaf head of RCRU is assigned as the national coordinator of the course, that RCRU shall be providing all technical support needed. Dr. AbuAglas went through the basic information from the deadline date, fees, and application structure of the course, challenges of an online course sharing her experience and encouraging all those who still didn't apply to, hoping that they would be part of the enriching GFMER community. She opened the floor for questions and queries. <http://www.slideshare.net/RCRU/gfmer-rcru-orientation-session-28-32012>

Part of the participants in the orientation session

Forums at UMST

RCRU organized a number of forums to bring together the course participants for face-to-face interaction which enriched the learning experience. The aims of these forums were:

- To bring the course participants to work together
- To identify relevant materials and references for the assignment topics
- To help the participants improve the quality of their assignments
- To give the opportunity to the participants who want to excel and show their interest and engagement in the course
- To help GFMER to identify potential candidates for further funded training in WHO Geneva.

Forum 1

Presentations presented for this forum were:

1. Maternal Care Access - prepared by Sawsan Abdalla, Ashraf Khalid & Amjaad Farah, presented by Sawsan Abdalla <http://www.slideshare.net/RCRU/maternal-care-access>
2. Obstetric Fistula - prepared by Mishkat Shehata & Hani Ibrahim, presented by Mishkat Shehata <http://www.slideshare.net/RCRU/obstetric-fistula-14066641>
3. Maternal Mortality - prepared by Fakhrraddin Abbas & Muaz Hassan, presented by Fakhrraddin Abbas
4. Post-partum Haemorrhage - prepared by Waled Amen & Dina Sami Khalifa, presented by Waled Amen <http://www.slideshare.net/RCRU/postpartum-hemorrhage-14055193>
5. Maternal near miss - prepared by Amal Khalil, Aida Ahmed & Nuha Kamal, presented by Amal Khalil & Aida Ahmed <http://www.slideshare.net/RCRU/maternal-near-miss>
6. Eclampsia - prepared by Sami Mahmoud & Majdi Sabahelzain, presented by Sami Mahmoud <http://www.slideshare.net/RCRU/eclampsia-in-sudan>

Forum 2

Presentations presented for this forum were:

1. Cervical cancer in Sudan- prepared by Dina Sami Khalifa, Aida Ahmed, Nuha Ahmed, Amjad Farah , presented by Aida Ahmed <http://www.slideshare.net/RCRU/cervical-cancer-in-sudan-14057841>
2. HIV/AIDs in Sudan- prepared by Mishkat Shehata, Osman Abbass, Sami Mahmoud, presented by Mishkat Shehata <http://www.slideshare.net/RCRU/hiv-aids-in-sudan>
3. HIV/AIDs in pregnancy- prepared by Majdi Mohammed, Hani Mohammed Ibrahim, Amal Khalil, presented by Amal Khalil <http://www.slideshare.net/RCRU/hiv-in-pregnancy-in-sudan>
4. STIs in Sudan presented- prepared by Sawsan Mustafa Abdalla, Muaz Hassan, Ashraf Ahmed, Waled Amen, presented by Waled Amen <http://www.slideshare.net/RCRU/st-is-in-sudan>

Forum 3

Presentations presented for this forum were:

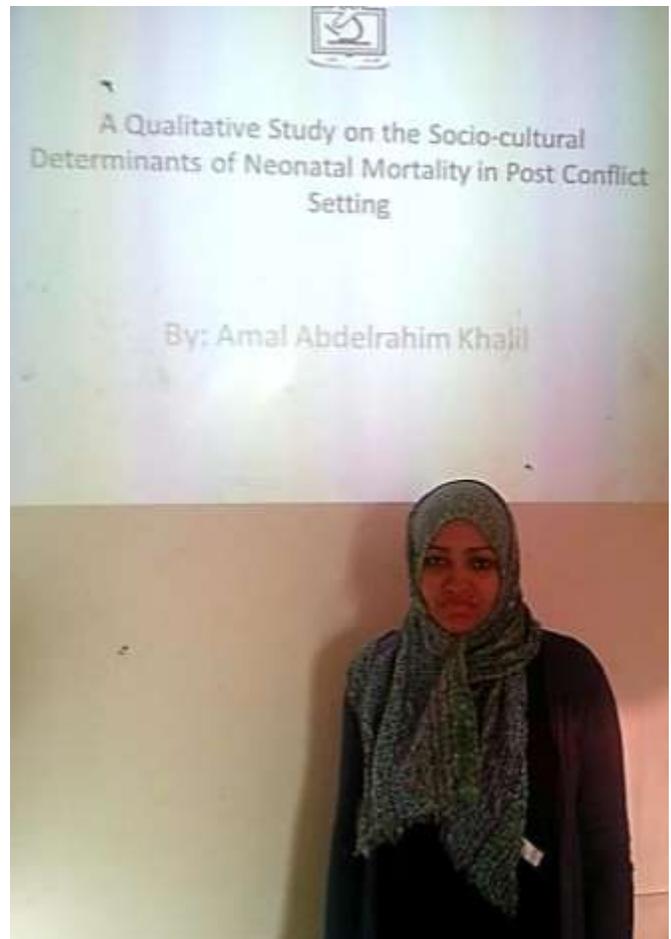

1. Population and Demography in Sudan presented by Dr. Majdi Sabahelzain <http://www.slideshare.net/RCRU/demography-and-population-of-sudan>
2. Barriers to contraceptive use in Sudan presented by Dr.Sawsan and Dr.Osman <http://www.slideshare.net/RCRU/barriers-to-contraceptive-use-14114826>
3. Description of available contraceptive methods in Sudan presented by Dr.Waleed Ameen and Dr. Sami Mahmoud <http://www.slideshare.net/RCRU/availability-of-family-planning-methods-in-sudan>
4. Utilization of family planning services in Sudan by Amal Khalil, Aida Ahmed
5. Actors, policies, programs and activities of family planning in Sudan presented by Dr. Amal Kalil on behalf of Hani Ibrahim and Dina Sami Khalifa <http://www.slideshare.net/RCRU/presentation-actors-policies-programs-and-activities-of>

Forum 4

Participants gave presentations about their research protocols and received feedback and comments from their colleagues and from Dr. Elmusharaf. Those who could not make it to UMST were asked to upload their presentations to the Facebook group page so that they do not miss the opportunity of receiving feedback.

Platforms:

RCRU created a number of platforms to help participants to access the teaching material, and learning methods. These platforms created a network between the students and facilitate communication between them and with the course organizers.

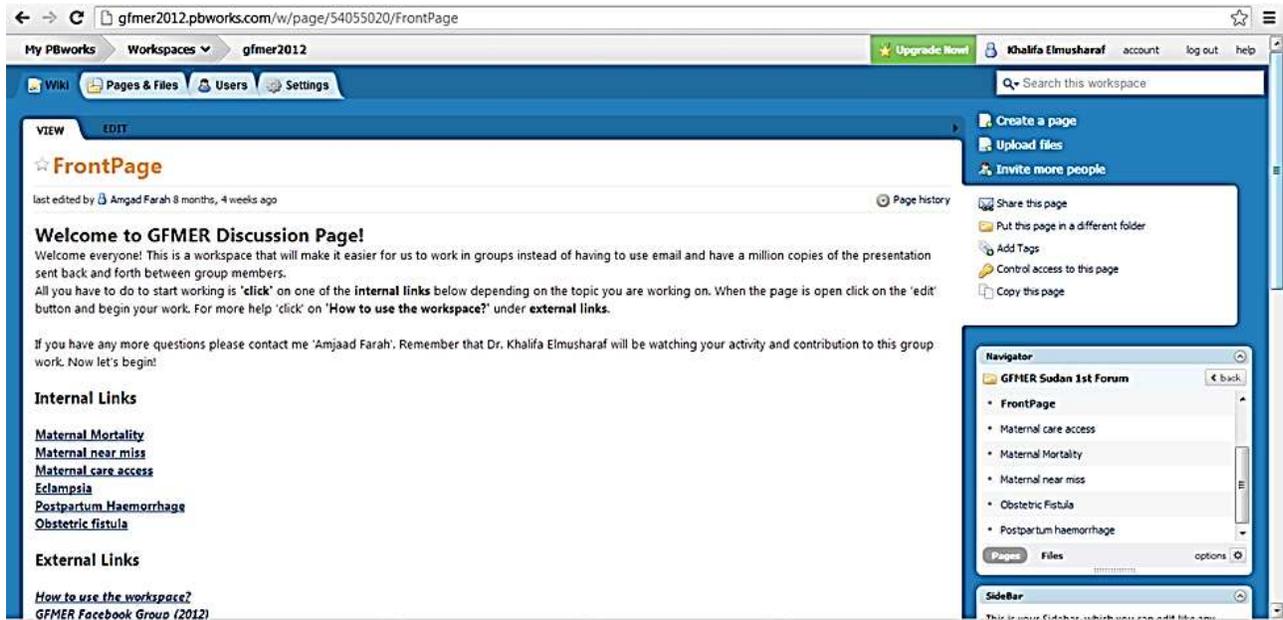

Facebook

<http://www.facebook.com/groups/GFMER.Sudan/>

The screenshot shows the Facebook interface for the 'GFMER Sudan 2012' group. At the top, there is a search bar and the user profile 'Khalifa Elmusharaf'. Below the search bar is a row of profile pictures of group members. The group name 'GFMER Sudan 2012' is displayed with navigation tabs for 'About', 'Events', 'Photos', and 'Files'. There are also 'Notifications' and search icons. Below the navigation is a post creation area with options: 'Write Post', 'Add Photo / Video', 'Ask Question', and 'Add File'. A text input field contains 'Write something...'. To the right, it shows '23 members' and options to 'Message' or 'Invite by Email', along with an 'Add People to Group' button. The 'RECENT POSTS' section features a post by 'Majdi Sabahezain' with the text: 'hello my colleagues..congratulation for completing this course..I would ask is there any one applied for mhealth 4srh course??..that because we can share some information together..!!'. This post has 9 likes and 3 comments. Below it are two more posts by 'Majdi Sabahelzain' and 'Khalifa Elmusharaf'. On the right side, there is a section titled 'What should people post in this group?' with an 'Add a Description' button. Below that is a 'Sponsored' ad for 'Aashri creations' with the text 'Please get in touch with on aashri creations@gmail.com' and an image of a woman in a red dress. At the bottom right, there is another ad for 'IDP Middle East - Study Abroad & IELTS' with the text 'Want to study abroad? IDP counselors can help you find the right course that best matches...'. The IDP logo is visible next to the ad text.

PB works

www.gfmer2012.pbworks.com

The screenshot shows a web browser displaying a PBworks workspace page. The address bar shows the URL gfmer2012.pbworks.com/w/page/54055020/FrontPage. The page title is "FrontPage" and it was last edited by Amgad Farah 8 months, 4 weeks ago. The main content area contains a welcome message: "Welcome to GFMER Discussion Page! Welcome everyone! This is a workspace that will make it easier for us to work in groups instead of having to use email and have a million copies of the presentation sent back and forth between group members. All you have to do to start working is 'click' on one of the internal links below depending on the topic you are working on. When the page is open click on the 'edit' button and begin your work. For more help 'click' on 'How to use the workspace?' under external links. If you have any more questions please contact me 'Amjaad Farah'. Remember that Dr. Khalifa Elmusharaf will be watching your activity and contribution to this group work. Now let's begin!" Below the welcome message are sections for "Internal Links" (Maternal Mortality, Maternal near miss, Maternal care access, Eclampsia, Postpartum Haemorrhage, Obstetric fistula) and "External Links" (How to use the workspace?, GFMER Facebook Group (2012)). The right sidebar contains a "Navigator" section with a tree view of the workspace structure, including "GFMER Sudan 1st Forum" and "FrontPage" with its subpages. Other sidebar options include "Create a page", "Upload files", "Invite more people", "Share this page", "Put this page in a different folder", "Add Tags", "Control access to this page", and "Copy this page".
