Summary:

As a part of further rolling out GFMER online training course in Sexual and Reproductive Health in Nepal, an introductory session was held on 6th July, 2014 at District Public Health Office, Lalitpur with an objective of introducing the course, introducing participants among, and establishing a network among the participants for learning and sharing. A brief overview was provided about the course which was followed by a detail discussion on course modules and assessment guidelines. At the end, a question answer session was organized to address participants' queries. Finally, as a way forward, a forum of Nepalese participants was created to provide an opportunity for interaction and experience sharing among them; likewise, the group agreed to conduct such discussion meetings on a bimonthly basis during the course period. The meeting was first of its kind and the interactive session with the participants made it prolific.
